### Looking for activities to add to your family album of great memories?

Here are a few of our personal favorites:

**First Day Gotta Go:** The Corning Museum of Glass is not only interesting and educational it's a fun place to go. (Check out the life-size glass gown.) The Hot Works Show with live glass blowing is just the beginning. You can sign up for a tour to explore 35 centuries of glass or create your own work of art at the Make Your Own Glass Souvenir Workshop. Afterwards you can visit Corning's Historic Market Street and have dinner at one of the many restaurants.

**Second Day:** Visit Hammondsport and many of the Finger Lakes Finest wineries and restaurants (ask for our suggestions for the best ones) and the Glen Curtis Aviation Museum. Or, head back to Corning and visit the Rockwell Museum of Western Art and check out all the shops you missed the first day.

**Third Day:** Like to hike? Watkins Glen State Park and the incredible Waterfalls are worth the walk. You can cruise Seneca Lake on Captain's Bill's boat. Eat on the boat or at one of the fine restaurants in Watkins Glen. Need some more suggestions? Check out our website for a more detailed list at [www.campbellcampground.com](http://www.campbellcampground.com).
